CASE NO.

The Sheboygan Police Department is enlisting members of our community to assist with efforts to resolve crimes through the use of the Video Registry Program.

The Video Registry Program has been utilized throughout communities in the United States and involves law enforcement seeking the assistance of homeowners and businesses to register their exterior facing security camera system. The registration of a particular exterior facing security camera system is only known to the owner and the Sheboygan Police Department. If a crime occurs within the vicinity of a registered camera, a representative from the Sheboygan Police Department may contact the registered owner and ask to review the recorded footage relevant to the date and time of the incident.

Under no circumstances will the Sheboygan Police Department utilize this information to view footage/feeds directly from the camera's owned by the registrants.

"The ability to quickly know who may have potential footage within a given area of suspects of a crime or of an incident increases the chances of resolving the issue and preventing future victimization" Capt. Veese

"The Sheboygan Police Department understands that teaming with community members is the best approach and the Video Registry Program is one more avenue of continuing that practice."

To register your Exterior Facing Security System, visit the Sheboygan Police Department website at www.sheboyganpolice.com and click on the icon for the surveillance camera registry.
